UNPRECEDENTED OFFER.
The Cincinnati Daily Post and The Central Record Both One Year for Only \$2.25.

We have made arrangements with the Cincinnati Daily Post by which we can, FOR A FEW DAYS ONLY offer both papers one year for only \$2.25. This means that you must us the \$2.25 and we will order Post sent to your address and mark your subscription to The Record up one year.

The Cincinnati Post is an afternoon paper which, by special mail arrangements, reaches Lancaster at 8:26 the same evening of publication, and, if you live in the country, it will be brought to you the next morning. It gives ALL THE MARKETS, and the best telegraph news in the country.

This is an offer better than any weekly paper ever secured for its patrons, and, as it cannot last but a few days, hurry your \$2.25 to this office.

Remember, you must pay the Record's part, whether your paper is marked a few months ahead or not. IT TAKES ONLY \$2.25 TO GET THEM BOTH.

Can't our friends in Florida send us a bunch of hot air?

Next Monday is county court. If in arrears to The Record, please call and settle.

The post office and banks were closed Wednesday, that all hands could celebrate the birth of the Pa of their country.

The doctors are very busy, and if you need one, better "put in a call" ahead of time. There was never more sickness than at present.

The room below Record office, which was so badly damaged by fire, is being repaired. Mr Geiger will move his boxball alley into the room.

Remember, our offer with the Cincinnati Post means you must pay a year in advance for The Record, no matter how your paper is marked now.

Communion services will be held at the Presbyterian church next Sunday morning. The usual preparatory services will be held tomorrow (Friday) night, at which a full attendance of membership is requested.

Offer Closes March 2. Our Cincinnati Post offer is to last longer than next week. All desiring to get the low rate must have their money in our office before Thursday, March 2, as we will take all subscriptions to Cincinnati on Friday, the 3rd. Positively, none can be received after that date.

How's This For Weather?

Some idea of the cold weather can be had from the fact of heavily-loaded wagons crossing Kentucky river at the mouth of Sugar Creek and other points in the county. Mr B Covington drove, in a buggy, on the frozen river from the mouth of Sugar Creek to Valley View, a distance of 18 miles, while some boys rode bicycles from that point to Ford, a distance of 36 miles. A man, whose veracity is unquestionable, tells us the ice at the mouth of the above-named creek was fully eight feet thick.

Singular Accident.

There were three accidents on this branch of the K.C., last week, the last one being rather remarkable. As the day train was coming down a grade, this side of Silver Creek, a large box car, in middle of train, jumped the track, rolled down the embankment and landed, bottom up, some fifteen feet from the roadbed. The car immediately behind did not leave the track, the air brake stopping that portion of the train. The remarkable part of the occurrence is that the track was not damaged in the least, and the engine backed, coupled up and the train proceeded without more than five minutes' loss of time.

Fruit Report.

Mr. C. T. Grimes, whose opinion on fruit no ones question, tells The Record he examined the peach crop on the 17th this month and they are safe. Apples are perfect, promising a very large crop. Pears of the late variety are dead, all early varieties living. Pears and cherries are all right. The drought last fall caused the killing of the pears. "Cousin Charley" has been very busy trimming and looking after the fruit trees, vines, etc., and will leave in a few days for Danville, where he has a large amount of work. If you have work in this line, better see him once.

Up To Date Barber.

Malcolm House has just installed several nice bath tubs, in rear of his barber shop, and is prepared to furnish hot baths on the shortest notice. The rooms are fitted up with every convenience and are comfortable in the cold of weather. His charges are reasonable, and his enterprise is greatly appreciated by those of our citizens who are for up-to-date improvements.

Reward His Work.

The good people of Danville should reward the work done for the enterprising city by the Danville papers, and there is no better way of showing appreciation than by making Editor Vernon Richardson city clerk. He is well qualified and deserves the honor. Show the newspaper man that you appreciate what he does for your town, neighbors.

Big Hogs.

The largest hog raised in this locality was killed last week by Mr Josh Daniel, one of Garrard's most prominent farmers. The animal tipped the beam at 1,000 pounds, and, when skinned, the hide measured eight feet across the centre. Another, raised by Mr Daniel, was one year old and weighed 700 lbs. Two June pigs pulled the beam at 99. These hogs were raised in a barn, and every attention given them. They were "bedded" as carefully as a race horse, and this extra care goes to prove that special attention to hogs pays handsomely in the long run.

Good For Somerset.

The people of Somerset are very much excited over the announcement by the head officials of the Southern railway system that they had decided definitely to erect the large shops there on the 500 acres of ground purchased last fall, and that contracts for all the work would be awarded at once and the construction of the immense works would be commenced about the first of March, if the weather would permit.

Five hundred new houses will be erected at once. Locomotive and car works will be placed there. The site of 500 acres which the company has purchased for the works is situated between the depot and yards and present shops, so that it will be a continuous yards and locomotive and car works extending for some three miles south of Somerset from the depot.

Care of a Hedge Fence.

My method has been to trim the hedge three times each year, viz: about the 15th of June, before harvest begins, then near the 15th of July and then in September, just as its growth for the year is finished. By so doing the wood is tender and cuts easily and dries up like a weed. Makes no litter or thorns to be removed. The hedge should be cut back in the early spring to the height of 4 feet, the width about 18 inches. In cutting, the aim should be to keep the hedge compact, as it is much more easily trimmed. A good hand can trim 80 to 100 rods per day if the above plan is adopted. Hoping that I may be of benefit to some one in solving the fence problem I remain, the farmers' friend,

Alex R. Denny.

Resulted In Good.

The temperature revival of last week had a good effect by awakening new interest among the people and winning new converts to the cause. The W. C. T. U., under whose auspices the lectures were given, is entitled to great praise for the noble work and the earnest work of the ladies will certainly be rewarded by crowns in the Great Beyond. Col. Holt is an exceptionally fine speaker, and, having "been there" knows that side of intemperance only one addicted to the damnable stuff can describe. Considering the miserable weather, fine crowds heard him, and all enjoyed his talks. We haven't space to go into details, but will say that any town, desiring to awaken interest in the cause of temperance, will do well to secure his services. The Lancaster Union appreciates the interest shown by the people, and are greatly encouraged in their work.

PREACHERSVILLE.

The entire \$2.25 must be paid on our Post offer.

The roads over the county are very muddy, but this is the case everywhere.

One of the best daily papers published and The Central Record one year for only \$2.25.

Don't Hurry.

It will pay you to hold an order for a suit until our March display sales.

Second-Class Mail Matter.

Lancaster, Ky., February 24, 1905

We have never known any one man to receive as many nice notices from the state press as have been showered upon our friend, Clarence E. Woods, who is a candidate for mayor of the city of Richmond. The newspaper boys know Clarence Woods, they know his many sterling qualities as a citizen and as a man; they have learned to love him and want the people of his town to know that his worth is known beyond the limits of his native city. If Richmond wants a chief executive who will not only keep her affairs in tip top shape, but one who will let the outside world know that she is on the map and has advantages for investment of capital, and other inducements, she should place the reins of government in the hands of Clarence E. Woods. The newspaper men of the state do not wish to butt in, but we believe we voice the sentiments of the entire press of the State in the foregoing article.

Since Lexington has decided to have a bunch of good, old fashioned hangings, crime has diminished to a great extent. When the people take the bit in their teeth and hang several blood-thirsty murderers, there is always a "lull" in the killing business. The coward, who packs a pistol and thinks he has enough "influence" to thwart the law, should be given to understand that the law is supreme, and if grand juries will indict a few of the professional witnesses, who sell their testimony as they do their vote, then, with the determination of better people, will check the murderers. The people of Kentucky are becoming tired of money and wire pulling figuring so fequently in our courts.

Lieut. Richard Hobson, the duck who blew up a ship in an effort to botch up the Spanish fleet, and then made a record of kissing two-hundred girls per minute for five consecutive hours, is prancing over the country telling the people there is to be a world war and that the United States must have a number of new war ships. Hobson is out of a job and wants Uncle Sam to stand around with a chip on his shoulder, hoping some foreign country will knock it off and the old fellow get into another scrap.

It is stated that twenty per cent. of the telephone girls marry every year. As a matter of course. Did you ever hear of a girl qualifying herself to make a living that some beast of a man didn't want to marry her? With all due respect to the male contingent of the human race, we must say there are more men looking for wives who can support them than there are women on the lookout for husbands.

A Louisville preacher says, "When a man becomes stagnant at seventy-five, he is either an old man or is in his dotage." When a man becomes stagnant and overbearing at less than fifty, he becomes the kind of fool the preacher cannot describe in suitable language, or the class of fool we newspapermen are not allowed to name in print.

At last, at last, a college professor has an idea. One has just reached down into his superabundance of wisdom and observes that girls of 18 are terribly conceited. Some pretty little fairy has just told the old wind bag that she will be obliged if he will quit sending her candy-kiss verses and trying to play young.

If President Roosevelt don't quit prancing around over the country, some crank, with an unpronounceable name, is going to shoot a hole through him. The President isn't afraid of the devil, and everybody knows it, but that fact ought not to cause Ted to set himself up as a target.

"MY OLD KENTUCKY HOME."

The Story of the Origin of This Famous Old Song.

The song "My Old Kentucky Home" was written by Stephen Collins Foster, a resident of Pennsylvania, while he and his sister were on a visit to Judge John Rowan, a short distance east of Bardstown, Ky. One beautiful morning while the slaves were at work in the corn field and the sun was shining with a mighty splendor on the waving grass, first giving it the color of a light red, then changing it to a golden hue, there were seated upon a bench in front of the Rowan homestead two young people, a brother and a sister. High up in a tree was a mocking bird warbling its sweet notes over in the hidden recess of a small brush the thrush's mellow song could be heard. A number of small negro children were playing not far away. When Foster had finished the first verse of the song his sister took it from his hand and sang in a sweet, melodic voice:

"The sun shines bright in the old Kentucky home;

"Tis summer the darkies are gay;

The corn tops ripe and the meadow's in the bloom;

While the birds make music all the day."

"The young folks roll on the little cabin floor.

All merry, all happy, all bright;

By'n'by hard times comes a-knockin' at the door—

Then, my old Kentucky home, good night."

On her finishing the first verse the mocking bird descended to a lower branch. The feathered singer drew his head to one side and appeared to be completely enraptured at the wonderful voice of the young singer. When the last note died away upon the air her fond brothersang in a deep bass voice:

"Weep no more my lady; oh, weep no more today,

We'll sing one song for the old Kentucky home;

For our old Kentucky home, far away."

"A few more days to tote the weary load.

No master, twill never be light;

A few more days till we totter on the road—

Then, my old Kentucky home, good night."

Garrard county people are very proud of the record made by one of our number, Rev R R West, whose promotion was mentioned in last issue of this paper. Tuesday's Evening Times prints the following:—"Robert R West, the Kentucky Democrat appointed auditor of the Panama Canal Commission, is making all his arrangements to leave Washington for the new republic to take up his new duties. Mr West secured his appointment solely on his merit and his record for efficiency. He is a native of Garrard county and came here as a clerk in one of the departments. He was promoted regularly and finally became known as one of the best executive auditors in the Government service. From a law clerkship he became chief of a division in the Treasury, then auditor of the Government Printing Office. He filled this place so acceptably that the Canal Commissioners selected him as their auditor, and he accepted the offer. In addition to his service for the Government, Mr West has done considerable work of a religious nature. He was the leader of movements which resulted in the erection of several churches in Maryland and in Virginia. One of the West churches is located in Brookline Md. Mr West has a wide acquaintance here, and Kentuckians are greatly pleased over the recent recognition of his ability."

Land, Stock, Crops.

Western Texas the recent blizzard was the worst in years and cattle men estimate their losses in the hundreds of thousands of dollars. The cattle huddled in bunches and starved rather than move.

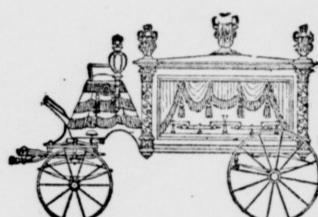

R. F. Hudson sold to Beazley, of Paint Lick, his crop of tobacco, 74 acres, weighing 15,000 pounds, at ten cents per pound. It was grown on Mr. Gill farm, now owned by Mr. Hudson.

An experienced Missouri corn grower says that when a crop of sixty bushels to the acre is secured, the corn costs thirteen cents a bushel to produce; for fifty bushels it is fifteen cents; for forty bushels eighteen cents; for thirty-five bushels twenty cents; and for thirty bushels thirty cents. "These figures," says the Albany Ledger, "are not far out of the way, and it is thus easy to know when you are selling corn below the cost of production."

If cut worms are likely to be troublesome poison them before planting corn. It is no use doing so after the corn is up, as they will prefer the corn to the poison. Mix Paris green with bran moistened so that it will stick together in balls and drop these over field or dip bunches of green clover in Paris green mixed in water and drop these in the field.

A Decatur (Ohio) special says: "In almost every community there are persons who excel the average in special lines of work. Such a one is Mr. Samuel Woods, of this place, in raising and selling tobacco. He raised his first crop in 1855 and last one in 1904, missing four years between these two dates. He has sold it for 25 cents a pound, and \$15 additional for superior handling. He has received from two acres of ground \$625."

Winter Meat Eating.

The Poor Stomach's Tale of Woe.
Just Now Mi-o-na Is Needed.

At this season of the year thousands of people are already showing the ill symptoms that are sure to result from the usual winter diet. Indoor life, meat-eating, hearty food, lack of exercise, overwork, and poor ventilation spell "sickness," and poor health.

If the stomach cannot do its work properly, ill health is sure to follow. Mi-o-na is the one medicine that assures a natural digestion, that strengthens the stomach, that soothes and heals all irritation, congestion, and inflammation in the stomach or bowels. It is this that makes it a certain and guaranteed cure for all stomach troubles.

If the digestion is impaired, the blood is impoverished and becomes filled with poisonous impurities, deranging whole system and causing sickness and suffering. Mi-o-na, acting upon the stomach and digestive organs cures sleeplessness, nervous troubles, headaches, backaches, and general weakness and debility.

If you are weak and ailing the chances are that it is due to a diseased stomach, but you can be cured by using Mi-o-na. Ask R. E. McRoberts, the druggist, to show you the strong guarantee under which Mi-o-na is sold. Mi-o-na costs but 50c a box. If it does not help you the price is absolutely nothing. Sold by R. E. McRoberts. Im-

More cattle were received in Chicago during the past month of January than ever were counted in during that month. Arrivals figure around 26,000 more than for January last year, when the banner January figures were made up. All told, 1,725,000 head of stock came into the Chicago yards last month being the most ever received in January and probably the largest monthly total on record. Receipts of swine of the initial month of the year are the largest since 1892, or around 90,000 or including 87,000 direct to packers considerably over 1,000,000 head, the largest second January receipt on record.

We uninformed town fellows fail to see why Kentucky is not bound to suffer a horse famine ere long, or why every farmer should not now be busy breeding and rearing the noble animal. Besides the constant drain now made upon us by the New Orleans and a dozen other Southern markets, tens of thousands of the same sort of general utility horses are going abroad. Horses to the number of 31,750 and valued at \$2,308,383, were exported during the eight months ended August 31, 1905. The European countries are all short of good draft and coach horses and if we had enough good horses above our own market demands export trade would take 10,000 to 15,000 per month. Farmers who breed high class horses will be sure of high prices, as the world wants more good ones and America is the chief country that breeds to suit with size and beauty.—Shelby Record.

Louisville Tobacco Market.—Total sales in this market last week were 2,627 hds., against 3,249 hds., on corresponding week of last year. Total receipts (last week) 1,797 hds., against 2,369 hds., for corresponding week last year. Rejections last week were 549 hds., 21 per cent. of the auction sales, against 16 per cent. the preceding week. Of the total sales 2,033 hds. were Burley and 549 hds. were dark tobacco.

There has been no notable change in the Burley market this week, the medium and good grades of red kinds have been a little irregular and a trifle easy. Anything however which could be classed as fine leaf or selections, was in good demand, and prices were generally satisfactory, though there was little of this grade offered. Color types were in good demand and were even harder to buy than last week. Farmers Home Journal.

The Kentucky Farmer and Breeder says: "There are about 185,000 steers and heifers sold out of Kentucky for the butcher every year. Of this number 45,000 are for export, 50,000 are second grade and go to the eastern markets or Chicago, 60,000 are consumed at home and 30,000 are shipped into Kentucky to be fattened on the distillery slop and then shipped East or West for the butcher. The average export steer weighs 1,400 pounds, the second class steer about 1,100 pounds and the majority of them consumed at home weigh from 800 pounds down the scale to the lightest weight that fits the gentle little heifer for the market. The average price paid for the cattle of all kinds bought and sold in Kentucky last year, that is 1904, was 32 cents a pound, so that by a little figuring it will be seen that the cattle business in this State is no small industry.

One Woman

in ten thousand may have the opportunity to indulge her taste for outdoor sports. The nine thousand nine hun-

dred and ninety-nine others must remain shut in to a sort of perpetual slavery, from which there is no escape. It is these shut-in women who suffer most from womany diseases, and who, when they are cured and made strong by the use of Dr. Pierce's Favorite Prescription, are eager to point the way of health to some other sufferer.

"I do not wonder that you call your medicine 'Favorite' Prescription, after the fact it has been my 'favorite.' Miss Bertha Elberts, Treasurer 'Young People's Society' of Christian Endeavor, First Presbyterian Church, residing at 1600 East 10th Street, Kansas City, Mo. "Was so weak and sick I could hardly raise my head, having constant backache and headache. Two bottles of Dr. Pierce's medicine made me a well woman, and since then it has been my 'Favorite' Prescription, too. Have advised a number of my friends who were suffering to use it, and hav. b. gratified that it has helped all without exception."

Dr. Pierce's Favorite Prescription establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It is unequalled as a tonic for run-down, worn-out women.

Weak and sick women are invited to consult Dr. Pierce by letter free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Rastus Is Coming.

There are 9,204,531 negroes in the United States, including Porto Rico and Hawaii. Nine tenths of them live in the South—one third of its population: 77 per cent. work on 746,000 farms, of which 21 per cent. are absolutely, and 4 per cent. partially, owned by negroes. There are 21,000 negro carpenters, 20,000 barbers and nearly as many doctors, 16,000 ministers, 15,000 masons, 14,000 dressmakers, 10,000 engineers and firemen, 5,000 shoe makers, 4,000 musicians, 2,000 actors and showmen, 1,000 lawyers (which seems too many). Since 1890 negro illiteracy has sunk from 57 to 44.5 per cent.—Everybody's Magazine.

Grave Trouble Foreseen.

It needs but little foresight to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs Jno. A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time but in Electric Bitters, I found just what I needed for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by R. E. McRoberts, druggist, at 50c a bottle.

Give Your Stomach a Rest.

Your food must be properly digested and assimilated to be of any value to you. If your stomach is weak or diseased take Kodol Dyspepsia Cure. It digests what you eat and gives the stomach a rest, enabling it to recuperate, take on new life and grow strong again. Kodol cures sour stomach, gas, bloating, heart palpitation and all digestive disorders. L. A. Soper, of Little Rock, Ky., writes us: "We feel that Kodol Dyspepsia Cure deserves all the commendation that can be given to it, as it saved the life of our little girl when she was three years old. She is now six and we have kept it for her constantly, but of course she only takes it now when anything disagrees with her." Sold by R. E. McRoberts Lancaster Ky. *im
